SUMMARY

GenAI Engineer and Full Stack Developer (MERN) with hands-on experience building production-grade RAG-based AI agents, LLM-powered automation systems, and scalable web applications. Skilled in designing multi-agent RAG pipelines using n8n, Pinecone vector database, LangChain and Microsoft Azure AI Foundry, and integrating LLMs via the OpenAI API. IBM-certified in AI & Cloud Technologies, with proven experience shipping real-world AI agents for medical, technology and retail businesses.

EDUCATION

Bachelor of Technology – Computer Science & Engineering **2023 – 2027**
Chaudhary Devi Lal University, Sirsa, Haryana GPA: **8.5 / 10**

SKILLS

- **Front-End & Back-End:** React.js, Next.js, Node.js, Express.js, REST APIs
- **Languages & Database:** Python, JavaScript, TypeScript, MongoDB, MySQL
- **Automation:** N8N, Webhooks, API Integration, Workflow, Automation, Web Scraping
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Supabase, IBM Cloud, Microsoft Azure
- **GenAI & AI Agents:** RAG Architecture, LLMs, OpenAI API, Prompt Engineering, AI Agent Development, Pinecone, Vector Embeddings, Microsoft Azure AI Foundry

EXPERIENCE

AI Agent & Automation Developer **06/2026 – Persent**
AITLAS.us | Akshay AICAMSR Pvt. Ltd. *On-Site, Dwarka, New Delhi*

- Built and deployed production-ready RAG AI agents using n8n, Pinecone Vector Database, and Microsoft Azure AI Foundry for clients across medical, technology, and retail domains, enabling intelligent customer support.
- Designed automated web scraping, vectorized knowledge bases, lead-capture systems, user/admin data management, email notifications, and live AI chat integrations to streamline business operations and customer engagement.

AI/ML & Cloud Technologies Intern **07/2025 – 12/2025**
Edunet Foundation | IBM SkillsBuild *Remote*

- Built AutoAI pipelines, AI chatbots and RAG-based LLM applications on IBM Cloud platform.
- Applied prompt engineering, EDA and data visualization for real-world AI problem solving projects.

Front-End Web Developer Intern **08/2025 – 09/2025**
Edunet Foundation | IBM SkillsBuild *Remote*

- Built responsive and interactive web applications using React.js, Tailwind CSS, and JavaScript with modern UI/UX.
- Improved application performance, user experience, and cross-device mobile compatibility across multiple projects.

PROJECTS

RAG-Based Multi-Domain AI Agents – *RAG Agents* *n8n, Pinecone, OpenAI API, LangChain, Azure AI Foundry*

∗ Built and deployed 3 production-ready RAG-based AI agents for real business clients across medical (aufhs.com, aicamsr.com) and technology (aitlas.us) domains, enabling intelligent question-answering and information retrieval.
∗ Engineered end-to-end n8n automation workflows for web scraping, data extraction, vector embedding generation, Pinecone storage, automated lead capture, Gmail notifications, and real-time webhook-based AI chat interfaces.

Goyatrik – Travel Booking Website – *Freelance Project* *React.js, Next.js, Tailwind CSS, Vercel*

∗ Designed and developed a full-stack travel booking platform as a freelance project for a business client, successfully delivered with features including tour packages, booking management, user authentication, and responsive design.
∗ Deployed on Vercel, ensuring responsive cross-device compatibility, optimized performance, & Best user experience.

Real-Time Chat Application – *WebSocket-Based Messaging SystemReact.js, Node.js, Express.js, MongoDB, Socket.io, JWT*

∗ WebSocket-based messaging system handling 100+ concurrent users with real-time sync.
∗ JWT authentication, Cloudinary media uploads and persistent chat storage in MongoDB.
∗ Optimized REST API queries reducing average server response time by 30%.

CERTIFICATIONS & ACHIEVEMENTS

Certifications

- AI & Cloud Technologies – IBM | Edunet Foundation
- Front-End Web Development – IBM | Edunet Foundation
- Full Stack Web Development (MERN & Next.js)
- Generative AI with Python – TudeDude
- AI/ML Engineer Foundation – Reliance Foundation
- Oracle Cloud Database Services – Oracle University

Achievements

- Built and deployed 3 production AI agent systems across multiple domains.
- Completed AI Agent & Automation internship at AITLAS.us using n8n, Pinecone, and Azure AI Foundry.
- Delivered and deployed a freelance travel booking platform.
- Developed AI chatbots and automation workflows for customer engagement.
